

INFORMATION PACK – PLM -

People with Limited Mobility (P.L.M.), refers to anyone who has a particular difficulty using public transportation, including the elderly, the disabled, people with sensory disturbances and those who require the use of wheelchairs, pregnant women and whoever accompanies small children.

In compliance with communiqué 10/SM of the Ministry of Transportation, it is noted that the HIGH SPEED PASSENGER CRAFT OF LIBERTY LINES respects the following points required in the communiqué:

Reserved places dedicated to P.L.M. inside the main passenger lounge, easily identifiable by means of specific placement symbols;

- ✓ That there be n. 2 (two) places on some high speed passenger craft inside the passenger lounge with anchorage points for passengers with wheelchairs;
- ✓ Security information in case of emergency is provided both by an audio and a video system as well as through safety leaflets;
- ✓ Call buttons are present in the passenger lounge accessible to all P.L.M. for use in case of emergency;
- ✓ Emergency evacuation routes on the ship are indicated with appropriate photo luminescent signs;
- ✓ Boarding access is guaranteed by means of appropriate ramps and with the assistance of on board personnel. Furthermore, warning signs are posted alerting the danger of high wave activity;
- ✓ On board personnel assigned to the care of P.L.M. are specifically trained to provide assistance, both during normal operative situations as well as in possible cases of emergency. These crew members are easily identifiable by the word "CREW" on the back of their uniforms and with a special badge indicating their duties;
- ✓ Some high speed passenger craft (LAURA, MIRELLA MORACE, SOFIA M, CARLOTTA M, EMMA M, CARLO MORACE, AMMARI') are equipped with n°1 (one) rest room specifically designed for use by people using wheelchairs, indicated with the appropriate symbol;
- ✓ Guide dogs are permitted.

At the time of booking, the P.L.M. is required to request information as to services available to them and to communicate in advance to the call centre a/o to the ticket office the nature of their handicap a/o their level of difficulty in order to be able to receive appropriate assistance by on board personnel. The P.M.R. must arrive at the embarkation area well in advance so that they can take advantage of priority boarding.

Pregnancy:

High speed passenger craft are not equipped for assistance with pregnancy or delivery. Therefore, pregnant passengers must provide, upon boarding, a medical certificate attesting their good state of health as well as that of the child, and of their suitability to undertake the journey and the estimated date of delivery. Ustica Lines cannot be held responsible for any event related to the pregnancy occurring during or after the journey.
